Matt:

I can get this to you later this morning, but I have one question. LRB 0898 appropriated zero dollars in FY13-14 and \$10 million in FY14-15. You want me to make the appropriation in the first FY, rather than the 2nd. Does that mean that you want \$10 million in FY13-14 and zero in FY14-15, or \$10 million in both FYs, or do you want to divide the \$10 million into \$5 million for both FYs?

Thanks,

--Mark

Mark,

Thanks for the draft on LRB 0898. Based on point 1 from the drafters note, can I get a new LRB number of the same draft except that makes the appropriation in the first year rather than the second.

The other two points are correct.

If we can also put a rush on this it would be appreciated. It'd be ideal to get it back tomorrow, for a potential roll out early next week.

Rep. Barca:

This bill is a redraft of 2011 AB 398. Please note the following:

1. Like the 2011 bill, this bill does not appropriate money for the grants until the second year of the upcoming fiscal biennium. Is that okay, or do you want to appropriate money in both the first and second years?

✓ 2. Because the bill creates a new appropriation, I delayed the effective date until after passage of the 2013-15 budget. If the bill were to pass before passage of the budget without such a delay, passage of the budget would negate the appropriation.

✓ 3. Under section 16.47 (2) of the statutes, any bill that contains an appropriation or that increases the cost of state government by more than \$10,000, except for emergency appropriation bills, may not be passed by either house of the legislature until the budget passes, unless the governor or Joint Committee on Finance recommends passage of the bill. Section 16.47 (2), however, is a legislative rule of proceeding that is not enforceable in court, because, generally, the legislature alone determines the extent to which procedural statutes are enforced.

- 1 AN ACT ~~to amend~~ 38.28 (1m) (a) 1.; and **to create** 20.292 (1) (aj) and 38.39 of the
2 statutes; **relating to:** workforce growth grants to technical college districts and
3 making an appropriation.

Analysis by the Legislative Reference Bureau

This bill allows a technical college district board to obtain grants from the Technical College System Board for the purpose of partnering with a business, consortium of businesses, economic development organization, or local workforce development board in a project to help meet local needs for supporting economic sectors with a documented skills gap or high workforce shortage, including manufacturing, energy, information technology, skilled trades, and health care. A project may provide for activities that address development of individuals prior to entering the workforce and workforce training, including any of the following: 1) job training scholarships based on local labor market needs; 2) building or infrastructure construction; 3) equipment and material purchases; 4) faculty hiring; 5) development of certain curricula; or 6) student career support services, including job placement and business recruitment. The bill directs the Technical College System Board to award grants to technical college districts that apply to the board to fund the costs of such projects. In awarding the grants, the bill requires the Technical College System Board to consider the speed by which the activities specified in applications could meet training and employment needs and give a preference to projects that seek to eliminate waiting lists for courses pertaining to jobs with high employment demand.

BILL
